# 01

The diagram consists of four horizontal bars, each made of small squares. The first bar is 20 squares long. The second bar is 10 squares long, with the text "10w" to its left. The third bar is 30 squares long. The fourth bar is 30 squares long, with the text "30" to its left.

02

The diagram illustrates the structure of a single data block. It is bounded by two horizontal lines, each composed of 25 small squares. The top line is labeled 'Block Header' and the bottom line is labeled 'Block Trailer'. Between these lines, the text 'image.png' is displayed in blue, with the error message 'image not found or type unknown' in red below it. At the bottom of the block, there is a small rectangular area containing five vertical bars.

03

The diagram illustrates a disk layout with a total capacity of 100MB. The layout is as follows:

- Block 1: 100MB file (labeled '100MB' in the original image)
- Block 2: 100MB file (labeled '100MB' in the original image)
- Block 3: 100MB file (labeled 'iPhone' in the original image)
