01

Figure 1: Schematic representation of the experimental design. The figure shows four horizontal bars representing different experimental conditions. The first bar is labeled '10w' and has 10 white squares followed by 10 black squares. The second bar is labeled '30' and has 30 white squares followed by 10 black squares. The third bar is labeled '10w' and has 10 white squares followed by 10 black squares. The fourth bar is labeled '30' and has 30 white squares followed by 10 black squares. The bars are arranged in a 2x2 grid.

02

The diagram illustrates a file structure. At the top, a long horizontal bar represents the header, divided into 32 small rectangular segments. Below this, the text "image.png" is displayed in blue. Underneath the text, a smaller horizontal bar represents the data block, divided into 8 small rectangular segments. At the bottom, another long horizontal bar represents the footer, also divided into 32 small rectangular segments.
